

Meeting Minutes: Committee on Educator Preparation

Academic Advisory Committee on Educator Preparation (EPAAC)
Meeting Minutes, May 14, 2001

The meeting* was called to order by Dr. Les Crawford, Co-Chair, and the following announcements were made:

Dr. Leon Hurley retiring this summer from GSU.

Dr. Jerrey Buller was leaving the state and accepting a deanship in Virginia.

Dr. Les Crawford was leaving the deanship to return to faculty, Fall 2001.

Dr. Joan Lord was retiring at the end of June.

Dr. Ron Colarusso was appointed Dean of Education at GSU, effective the May 14, 2001.

The minutes from the February 9, 2001, sent electronically, were accepted and approved by the membership.

OLD BUSINESS

Bylaws

The bylaws item was moved to the first item under Old Business in order to be able to begin operating the Advisory Committee using the Bylaws. The bylaws had been circulated electronically to the membership prior to the meeting and had been first discussed at the Spring 2000 meeting.

Crawford called on Dr. Bernie Patterson, chair of the Bylaws Committee, to report for the committee. Paterson asked for a count of members present. It revealed that of the 45 members, 32 were in attendance, which constituted sufficient numbers for a quorum. Patterson reviewed the history of the development of the bylaws and the development over the past two years. Discussions centered on the name of the group (EPAAC or AACEP) and the inclusion of the two-year institutions in decisions that centered exclusively at the junior, senior, and graduate level. Patterson made the motion and Dr. John Black seconded to accept the bylaws with the title of the group amended to read Educator Preparation Academic Advisory Committee.

Dr. Curtis Martin made the motion with Dr. Bob Michaels' second to amend the second sentence in the first section of Article I in the Bylaws to read as follows: "The primary purpose of this committee is to assist each Board of Regents institution that prepares educators to meet and exceed the Board of Regents "Principles for the Preparation of Educators for the Schools" and to work toward further continued improvements over time."

individual campus policy on double majors will apply. The chief academic officers will act on this at the June meeting. A minor is as defined on your campus. However, members reminded the assembled that the term minor was clearly defined in BOR regulations.

Dr. Hugh Hudson, referenced New Principle #5, pages 8-9, and requested that the meaning of the statement be clearer as to who (institution or institute) grants the leadership degree. There was a clear consensus from the memberships that while this institute would be housed in one of the research institutions, the institution was clearly the grantor of the degree.

Black made the motion and Harrison seconded to accept refinements as amended. The document will be modified not showing the amendments made at this meeting. Motion carried unanimously

Praxis/Regents Test Report

Dr. Kirk Myers presented the Praxis I/Regent's Comparison Study & Early Childhood Enrollments Report. Myers indicated that preliminary information he had collected might be interpreted to mean that there was possibility that the Praxis I was more difficult than the Regents Test. Thus, this questioned the need for both for Education students. Discussion followed. It was noted that it is important to have an accurate and comprehensive analysis of the data. An extensive study is required before a recommendation can be presented to the BOR. It was recommended that the PSC/BOR work together to gather and analyze this data. Patterson made the motion that a study group be appointed to direct this project. Michaels seconded. Motion carried unanimously. The following committee was appointed: Tom Harrison, Chair; Kirt Myers, Sue Wilson, and Linda Noble (An additional name is missing from the minutes.).

EDEC Articulation Agreement

Dr. Mary Ellen Cosgrove presented the Armstrong Atlantic State University and Savannah Technical College Course Transfer Agreement. Issues centered on accreditation and the degree status (AAS or AAT). The agreement between the two institutions is for transfer of course credit not transfer of the complete program. Kettlewell noted that a subcommittee has been formed and is meeting for the first time today after this meeting. The subcommittee will study the issue and decide if this should be brought before the whole body or looked at on an institution-by-institution basis.

Praxis Committee Report

Dr. Ron Colarusso presented the Praxis Committee Report. The committee had visited with Toth and Dr. Fran Watkins regarding issues raised by the membership at the last meeting (See attachment). Discussion followed. Specific items of interest that were raised from the report were: (1) The cost of Plato, a program replacing 03an

tests to be provided to the institutions; and (6) institutions should be designated "high priority" not "at risk". Curtis Martin made the motion and John Black seconded to accept the report and action plan submitted by the committee.

Kissing the Pig

Patterson thanked the group for their support in Baldwin County Boys and Girls fundraiser. At the last meeting the group donated close to \$100 towards this cause. Patterson's total collection came close to \$6,000 with Vice President Anne Gormly, GC&SU, adding an additional \$4,000 for a grand total close to \$10,000. Patterson presented evidence of his success to the group with a 'lovely' photograph of him kissing the pig. (Sorry, we weren't able to attach this to the minutes.)

NEW BUSINESS

Elections

Harrison made the motion and Padilla seconded that a committee composed of the current troika be charged with the task of developing the slate of officers as specified in the newly accepted By-Laws. Les Crawford, Larry Peterson, and John Black will submit a slate of officers for electronic voting to the group. Motion carried.

Teach for Georgia

Harrison, one of the higher education appointees to PSC, brought before the group the concern that individuals in the Teach for Georgia program were not being held to the same high standards as those candidates being prepared in the BOR institutions. The concern centered around the issuance of provisional certification without a passing score on the Praxis II exam. The group entered into a lively discussion of this issue. Harrison and Hurley, the other higher education representative on the PSC, listened attentively and will take all viewpoints into consideration when they vote at the next PSC meeting on this issue. There was strong support that academic rigor be maintained prior to provisional certification, as suggestion by the Board of Regents Principles. Praxis II should be retained in order to obtain provisional certification.

The meeting was adjourned.

*The minutes were re-ordered to provide better coherence and any need for further reference.
